New Bank Draft Authorization []

Change to Existing Authorization []

Remove Bank Draft Authorization []

Please attach a VOIDED check (Not required if removing bank draft authorization.)

Bank Draft Authorization Agreement

I hereby authorize the Macon Water Authority (MWA) to automatically draft my checking account for the payment of my MWA utility bill. This authorization will remain in effect until I notify the MWA that I no longer desire the service. If I choose to remove this service I understand the MWA will need at least ten (10) business days to act upon the notification. I understand that the service can be interrupted for one (1) billing cycle with a notice of FIVE (5) business days.

Bank drafts will be drawn on the due date of the bill, although it is unlikely that the due date will fall on the exact same day each month. Customers will receive a monthly bill at least ten (10) days before the bank account is debited. You may choose to receive an electronic notice of the bill through our web site or both at www.maconwater.org. The Automatic Bank Draft (ABD) service takes approximately sixty (60) days to implement and until that time the customer will be expected to pay their bill in the normal method. A \$30.00 processing fee will be added to accounts if there are insufficient funds at the time of the debit.
